

Precautions for handling and care

Natural Wood

*As this is made of natural wood, the wood color and grain pattern might differ slightly with each product having natural wood characteristics.

*As this is solid wood with the oil finish, the wood is constantly able to breath. Therefore it is important to remember the product should be placed in the same condition at all time. (humidity level)

*To avoid discoloration, cracking, warpage and similar disformation of natural wood products please avoid locations such as:

1. Direct Sunlight
2. Any cooling and heating units
3. Exposed to water

Care

*As the color fades with time, it is recommended re oil the product.

*The oil we use for this table base is Polyx **Original** from Osmo Oil, please vist the website for more information. www.osmo.ca
